

BascaTunnel *Continuous industrial container washing system*

BASCA

Cleaning equipment for tanks and containers

BascaTunnel is an automated washing machine for industrial containers. It heats and recirculates water efficiently, using multiple rows of nozzles for cleaning. Containers move through a continuous washing, rinsing, and sanitizing process (optional). The system is easy to operate, programmable via HMI and designed for minimal maintenance. Built-in diagnostics for reliable, high-throughput performance.

BENEFITS

1-3 min. Average cleaning time

80% less waste disposal

75% workforce reduction

Improved safety and quality

Modular design

Easy to install

Compact layout

Cost efficient

TECHNICAL DATA

WATER AND ECO-FRIENDLY FLUIDS

Size LxWxH: 6000x1563x1683mm (different on request)

Useful section for loading (WxH) 965x700mm (different on request)

Electric supply: 3x400 V - 50 Hz (different on request)

Power: approximately 20 kW (based on configuration)

Electrical insulation: IP55

Water supply: filtered clean water at 2 bar

Washing tank capacity: 350 L

Cycle process: programmable via touch screen

Max wash fluid temperature: 70°C

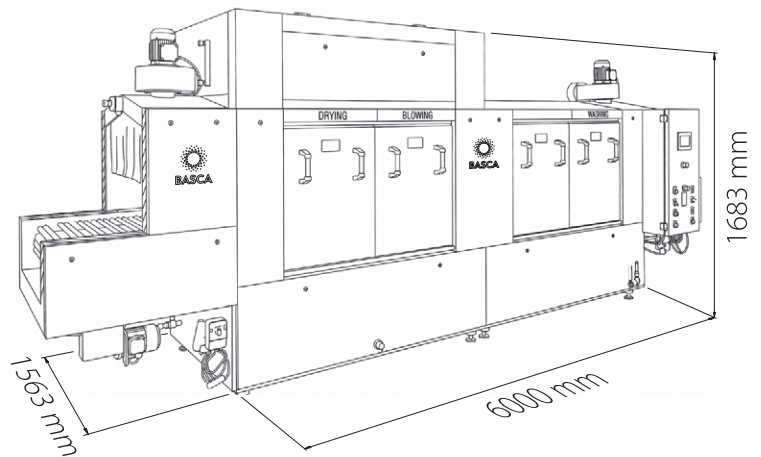

Max rinse fluid temperature: 90°C

PLC controlled cycle with intuitive HMI
