

BascaWM

The most versatile IBC and tank cleaning machine

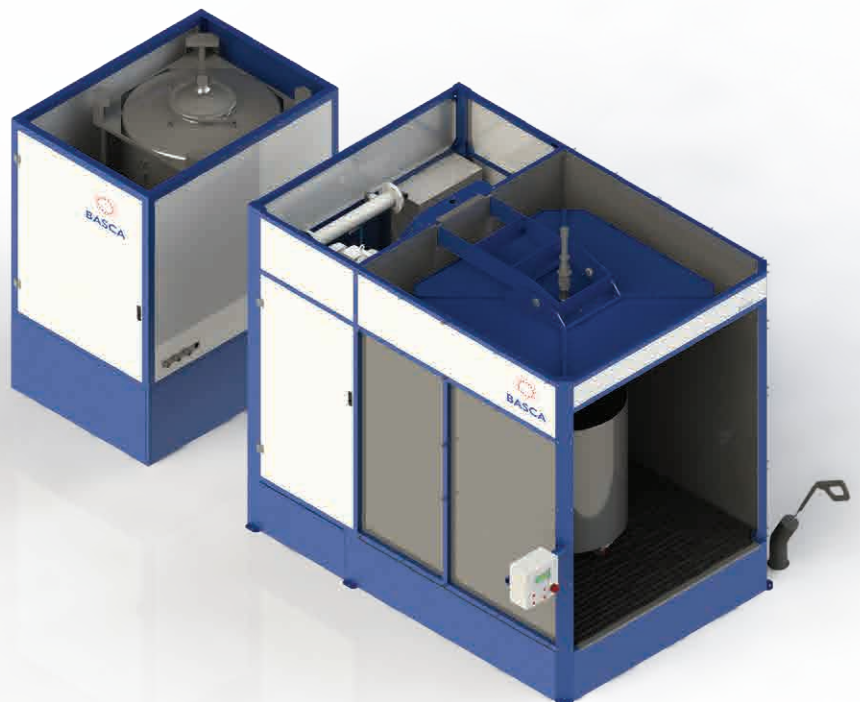

BASCA

Cleaning equipment for tanks and containers

The best solution for cleaning plastic or metallic IBC's and mixing tanks. Developed with a modular design, Basca washing machine can be configured to meet your specific needs, and upgraded if your production grows or changes over time. Basca washing machine can be configured to clean multiple products with solvent, water, or both cleaning media through a high-pressure jet or brushes.

TECHNICAL DATA

WATER AND ECO-FRIENDLY FLUIDS

Size (LxWxH): 3000x2000x2200mm
Electric supply: 3x400V - 50Hz (different on request)
Power: 5.5KW up to 40kW (based on configuration)
Electrical insulation: IP55
Air supply: 7 bar
Cycle process: programmable via touch screen
Washing pressure: 3 bar up to 500 bar
Max fluid temperature: 80°C
Filtering system: n°2 bag filters with s/steel case
PLC controlled cycle with intuitive HMI
Complying with 2006/42/EC requested safety devices

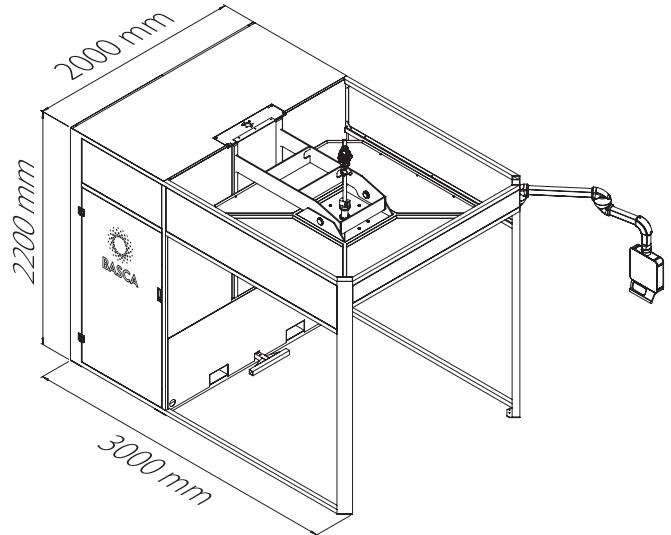

SOLVENTS

Size (LxWxH): 3000x2000x2200mm
Compressed air supply: 7 bar
Cycle process: programmable
Washing pressure: 3 bar up to 40 bar
Filtering system: n°2 bag filters with s/steel case
Control panel with pneumatic logic or PLC driven with touch screen HMI
Complying with 2006/42/CE requested safety devices
EX-proof versions according to ATEX Directive 2014/34/UE

ACCESSORIES

- Pre-wash and final rinsing cycle
- Stocking tanks with level controls
- Heating system
- Drying system
- Sanitizing rinse
- High pressure cleaning

- External cleaning with collection tank
- Rotating brushes
- Closed chamber with interlock security
- Bottom tilting platform to help the fluid drain out from the vessel valve
- Full stainless-steel version
- Drain valve cleaning device
